

T - Reduces Patient Exam Time
L - Reduces the Risk of Litigation
C - Improves Patient Care

Additional Product Information

The Neuro 7 was created so that the 21st century medical professional can do a first-rate neurosensory exam. The founders of J&R Enterprises brought the Neuro 7 to the global market using exceptional materials and engineering. It has been crafted into an ergonomic design with incomparable functionality. This is the ultimate high-end device for the meticulous practitioner

The Neuro 7 is made of stainless steel and durable polycarbonate to permit years of tough use. The distinctive molding material and exclusive manufacturing process ensure the durability and longevity of the Neuro 7. It also makes certain that the pupillary size chart, numbering, logo and metric ruler on the housing can never be rubbed or scrapped off since these are bonded into the Neuro 7 itself. There are no poor-quality stick-on films, tamper printing, or materials in the Neuro 7. The Neuro 7 is water resistant and may be left to dry if it gets wet. The individual tools are designed to be cleaned with simple alcohol wipes.

The developers of the Neuro 7 have made sure that the disposable pinwheels, sharp tips and monofilaments comply with Occupational Health and Safety Administration's blood borne pathogen guidelines. The Neuro 7 is designed specifically for medical professionals worldwide.

J&R Enterprises is a registered firm with the FDA. J&R Enterprises is obtaining a U.S. Patent and international patents covering over 140 countries through the Patent Cooperation Treaty (PCT) process. While J&R Enterprises' chief patent attorney is located in the U.S. she instigates patents worldwide and is an expert in and fervent defender of intellectual property rights. J&R Enterprises, Inc is continually acquiring U.S. and international distributors and sales representatives as well as having the Neuro 7 displayed in retail outlets such as medical bookstores, medical catalogs and medical supply websites worldwide.

The Neuro 7 is a state-of-the-art neurological instrument made for today's discerning practitioner. Everything is self-contained in the Neuro 7. Read more.
